Stacey,

I received the email below this morning, related yesterday's City Council meeting item # 65, public hearing for project SID-1514 Ann Road. Mr. Cole is a property owner within the proposed project. He requested that this item be forwarded to the City Council. We stated to property owners that all comments should have been submitted by Friday July 31st. As you can see from the Sent heading below I received his email this morning.

Thank you,

Patrick D. Murphy  
Engineering Associate

Good Morning , Please send me more information on the purposed SID .

I would like to know the status and the time line for going forward . Would like to know the information submitted by the other users on the SID .

I am against the SID . I can not see the need for improving my property . If the City wants to improve Ann Road the city should finance it . Not put the burden on individual property owners .

What did the traffic study state when the church was permitted on Cimerron ?

Please forward this to the City Council .

Thank You

Charles Cole
